GWO BST First Aid - 1 day course

Purpose

The aim of this GWO BST Module is to enable participants to recognize signs and symptoms of life threating situations and administer safe and effective first aid in the wind turbine industry/WTG environment in order to save lives and prevent further injury, until the casualty can be handed over to the next level of care.

Who should attend?

Personnel who will be working in the wind industry or related fields and will have their duties in a wind turbine environment, usually in physical contact with a wind turbine or WTG structure. Personnel that perform job functions that have been risk assessed by their employer or their workplace duty holder as a function, where training according to one or more modules of the BST standard may mitigate of the identified risks

Objectives

After successfully having completed this GWO BST First Aid Module, the participants can:
- Act independently in recognizing, assessing, and prioritizing the need for basic first aid and providing lifesaving first aid until the casualty can be handed over to the next level of care in case of an incident in the wind turbine industry/WTG environment
- Take responsibility for recognizing their limitations as a basic first aider, calling for help and enable evacuation off the casualty in case of an incident in the wind turbine industry/WTG environment

Prerequisites

All personnel participating in basic safety training shall be medically fit and capable of fully participating i.e. not suffer from any medical illness or are under the influence of any narcotic substance or alcohol. Participants' signatures testifying to their medical fitness shall be collected prior to the start of the basic safety training course. Furthermore, participants shall have created a personal Participant Profile in WINDA and provide their own WINDA ID prior to completing the BST training.
