QSYS NC Awareness Video

Purpose

Please be aware that starting from 8th August 2022 QSYS application will be renamed to OpQ (Opcenter Quality) after upgrading to new version. The process of creating and managing Non-conformance reports (NCRs) has not changed therefore the content of this training is still relevant. The new application has slight changes in the design and layout of icons.

Reducing non-conformatnce costs and creating the level of awareness in regards to the importance of correct and timely reporting of NC's.

Who should attend?

All roles within NC QSYS.

Objectives

An introduction into the QSYS platform, creating an understanding of the importance of reporting NC's in a correct and timely manner.

Prerequisites

None.

Contents

The content within the video is an introduction into the QSYS platform and how to create
