Goracon GWB-250/450-SWP - Installation and Maintenance

Purpose

The overall purpose of the course is to gain the knowledge and skills required to install and maintain the Goracon GWB-250/450-SWP lifts.

The training can be booked as classroom training delivered via Goracon - delivered at their premises in Germany or onsite given that required equipment is available.

If this training is organized directly with Goracon it is the responsibility of the SGRE booking contact to make arrangements, issue the PO and ensure that certificates are uploaded to Group Account for storage and qualification management using UP-9033

Training can be booked via
Booking contact Goracon, Germany:service@goracon.de.
Booking contact Gemini, USA: cgagnon@geminienergyservices.com
Booking contact Certex, UK: sam.purvis@certex.co.uk
Please refer to the "Master Purchase Agreement" if booking.

Onsite delivery includes max. 6 participants
At Goracons' location: Min. 2 and max. 10 participants

Who should attend?

Technicians tasked to install and perform service on the lifts

Objectives

Upon completion of the course the participants are able to:
- Safely handle and operate the G-servicelift
