# Siemens Gamesa - SG Training Web

## SE-P-50562

## SGTT - Introduction to LOTO

### Purpose

To raise awareness about the LOTO Process, the importance of performing LOTO, and the risks associated with not performing LOTO correctly.

### Who should attend?

The course is intended for Siemens Gamesa employees, customers and 3rd parties scheduled to work in an environment where Lock-Out Tag-Out (LOTO) is required.

### Objectives

- Describe the minimum requirements concerning awareness, knowledge and adoption of safe working practices for hazardous energies.
- Describe the risks associated with working with hazardous energies and the correct use of personal protective equipment to mitigate these risks.
- Recall the different types of LOTO and the use of Zero Energy Verification tooling.
- Demonstrate how to follow Energy Isolation Documents.
- Demonstrate correct application of Mechanical, Hydraulic and Electrical LOTO, including Zero Energy Verification procedures.

### Prerequisites

Read and understand English
- SE-P-85400 SGTT- General Electrical Awareness eLearning
- SE-P-50510 SGTT - General Technical Safety Awareness eLearning

Recommended
- SE-P-50410 GWO Basic Mechanical
- SE-P-50420 GWO Basic Electrical
- SE-P-50430 GWO Basic Hydraulic
