SGRE BST First Aid Refresher

Purpose

The aim of this course is to review and build on previously gained knowledge and skills from First Aid through theoretical and practical training so that participants can administer safe and effective First Aid in the wind industry / wind turbine environment.

Who should attend?

This course will enable all personnel to work with First Aid in a safe manner both onshore and offshore.

Objectives

Upon completion of the course the participants are able to:

- Demonstrate understanding of the importance of safely and correctly carrying out First Aid in accordance with the legislative requirements of their geographic location and according to European Resuscitation Council (ERC) and American Heart Association (AHA) guidelines.
- Identify and explain normal function, normal signs and symptoms of serious and minor injuries and illness related to the human body.
- Demonstrate understanding and correct order of management in emergency situations in a wind turbine.
- Demonstrate correct use of lifesaving First Aid using the Primary survey, Airways - Breathing - Circulation (A - B - C / C-A-B).
- Demonstrate correct use of an Automatic External Defibrillator(AED).
- Demonstrate correct use of ordinary First Aid, the Secondary Survey.
- Demonstrate correct use of First Aid equipment in First Aid scenarios.

Upon completion of the course the participants can access SGRE turbines in accordance with SGRE PRO 15833 Ap2 Siemens Gamesa Access Safety Training

Theory / Practice

20% / 80%

Prerequisites

Valid SE-P-50010 GWO BST First Aid OR SE-P-50210 GWO BST First Aid Refresher OR SE-P-49010 SGRE First Aid OR SE-P-49110 SGRE First Aid Refresher

Notes

This course is based on GWO First Aid Refresher Training Standard content and enables course participants to achieve same skills and competencies as in GWO First Aid Refresher course.

Validity

24 months
