## Structural Blade Repair Refresher - Written Test

### Purpose

This Written Test E-learning is for technicians, who have achieved the SE-P-16700 Structural Blade Repair certificate and need a recertification

### Who should attend?

The E-learning is intended for Siemens Gamesa Renewable Energy's and approved subcontractor's employees, whose duties include repair of structural damages on blades in SGRE

- For booking, please contact your local Training Center.

### Objectives

Upon completion of this E-learning the participants have obtained the following knowledge:

- This E-learning verifies, that the Structural Blade Repair certified technician has the knowledge to work according to relevant Work Instructions (WI) and Checklists (CH) and still have adequate knowledge and skills as gained in the course SE-P-16700 Structural Blade Repair.

### Prerequisites

Valid SE-P-16700 Structural Blade Repair OR SE-P-16710 Structural Blade Repair Refresher

- If you received following error message SE-GL-O-CS-Prereq for SBR Refresher Written Test in the attempt to book the SE-P-16720 Structural Blade Repair Refresher - Written Test

- This indicate that your current Structural Blade Repair Technician certificate validity has expired and you are no longer eligible for attending the SE-P-16720 Structural Blade Repair Refresher - Written Test and are to attend the basic SE-P-16700 Structural Blade Repair course, duration 15 days, to regain your certification.

### Notes

Recertification

The recertification for Structural Blade Repair SE-P-16700 certificate is as follows:

After 1 year: SE-P-16720 Structural Blade Repair Refresher - Written Test (eLearning)

After 2 years: SE-P-16710 Structural Blade Repair Refresher (classroom).

Following refreshers follow this pattern.
