SE-P-50561-ALL

LOTO Awareness Logbook

Purpose

The purpose of this logbook is to ensure the individual can demonstrate they can follow the LOTO process in the turbine with the guidance of their Team Lead and following the relevant isolation documents. Required for all those site personnel that choose to comply with the LOTO Awareness requirement via the eLearning + OJT option. Once the individual completes the LOTO Awareness eLearning and this logbook, they will obtain a green LOTO awareness profile. *Tasks The logbook consists of 6 tasks to isolate a mechanical, electrical and hydraulic component and verify zero-energy state, by following an isolation document with the guidance of their Team Lead. Iterations *These tasks will need to be performed only once, unless the Team Lead sees a specific need for further iterations. This will need to be justified in the comments section of the task.

Who should attend?

the course is intended for Service, Lifting, Commissioning or Blade Technicians.

Prerequisites

Participant must have a valid LOTO Awareness eLearning qualification. Can be obtained by attending the SE-P-50560 SGTT - LOTO Awareness eLearning

Notes

Must be observed and signed by a Team Lead / Authorized Person, to confirm that the technician has demonstrated knowledge in all sections. Additionally, it is required that the site responsible person (internal SGRE employee) acts as an observer and provides the final signature for the completion of this logbook. Once this final signature is provided, the logbook will be complete and count towards the individual's account in SG Training Web.

Notice:

- This logbook is not available in Americas region (NA and LATAM)
- This logbook is available for external individuals only
- Course duration. Approximately 1 hour, to be completed during the first weeks of deployment to site.
