Troubleshooting Assessment of Competence Logbook Family 1

Purpose

The purpose of this logbook is to assess and confirm a technician's ability to independently diagnose, analyse, and resolve wind turbine faults using approved troubleshooting processes.

Who should attend?

Technicians progressing towards Troubleshooter competence sign-off.

Objectives

To confirm that technicians can identify root causes, implement corrective actions, and verify system operation without direct supervision.

Contents

Assessment of:
- Fault diagnosis
- Root cause analysis
- Troubleshooting methodologies
- Diagnostic tools
- System data
- Corrective actions
- Technical documentation

Notes

Must be assessed through direct observation of workplace troubleshooting activities.
Completion confirms competence in troubleshooting activities performed independently but does not replace site authorisations.
