## Leadership Assessment of Competence Logbook

### Purpose

The purpose of this logbook is to assess and confirm an individual's ability to safely lead and coordinate work activities, maintain control of work and risk, and supervise personnel in accordance with company standards, approved procedures, isolation documentation, and Zero Harm principles.

### Who should attend?

Technicians progressing towards Team Lead competence sign-off.

### Objectives

To confirm that individuals can safely apply their technical knowledge, leadership behaviours, communication skills, and decision-making to perform Team Lead responsibilities.

### Contents

Assessment of:
- Work planning and coordination
- Leadership behaviours
- Communication
- Risk management
- Isolation and safety controls
- Supervision of work activities
- Operational decision-making

### Notes

Must be assessed through direct observation of workplace activities.
The individual must demonstrate the ability to:
- Lead and coordinate people and work activities
- Maintain control of work, risk, and system boundaries
- Apply approved isolation documentation and safe systems of work
- Supervise work activities and verify safe execution
- Exercise appropriate judgement and decision-making
- Demonstrate effective communication and leadership behaviours

Completion confirms competence to perform Team Lead responsibilities within the defined scope of the role but does not replace site authorisations, permits, or management approval
