Installation Pre-Training Logbook

Purpose

The purpose of this logbook is to provide structured workplace exposure to wind turbine installation activities, systems, equipment, documentation, and safe working practices prior to formal Installation Technician training.

Who should attend?

Technicians preparing to attend CT-I-M or CT-I-E training programmes.

Objectives

The objective of this logbook is to:
- Develop awareness of installation activities and processes
- Build familiarity with installation documentation and procedures
- Develop understanding of safe systems of work and quality requirements
- Provide exposure to mechanical and electrical installation systems
- Prepare technicians for Installation Technician training

Contents

Introduction to:
- Installation activities
- Installation documentation and procedures
- Safe systems of work
- Quality requirements
- Installation tools and equipment
- Mechanical installation systems
- Electrical installation systems

Notes

Completion of this logbook is mandatory before a technician can attend CT-I-M or CT-I-E training programmes.
Activities must be observed and reviewed by a Competent Technician or Assessor.
Completion of this logbook confirms:
- Participation and exposure
- Structured workplace learning has taken place

Completion of this logbook does not:
- Indicate competence
- Authorise independent task execution

Formal competence will be assessed following Installation Technician training.
