Installation (Electrical) Assessment of Competence Logbook Family 2

Purpose

The purpose of this logbook is to assess and confirm a technician's ability to independently perform electrical installation, electrical completion, and commissioning preparation activities in accordance with approved procedures and applicable electrical safety requirements.

Who should attend?

Technicians progressing towards CT-I-E competence sign-off.

Objectives

The objective of this logbook is to confirm that technicians can safely and consistently apply their training and perform electrical installation activities independently.

Contents

Assessment of:
- Electrical installation activities
- Cable installation and termination
- Electrical completion activities
- Commissioning preparation
- Electrical systems
- Installation documentation
- Safe working practices

Notes

Must be assessed through direct workplace observation by an authorised assessor.
The technician must demonstrate activities are completed:
- Safely and correctly
- In accordance with approved procedures
- To the required technical standard
- Consistently and repeatably
- Within authorised limits

Completion confirms competence but does not replace site or electrical authorisations.
