Commissioning Assessment of Competence Logbook Family 7 - SICS

Purpose

The purpose of this logbook is to assess and confirm a technician's ability to independently perform commissioning activities on wind turbine systems in accordance with approved procedures and Zero Harm principles.

Who should attend?

Technicians progressing towards Commissioning competence sign-off.

Objectives

To confirm that technicians can verify system functionality, manage defects, and confirm system readiness for operation.

Contents

Assessment of:
- System verification
- Configuration activities
- Functional testing
- Defect identification
- System readiness
- Technical documentation
- Commissioning tools and interfaces

Notes

Must be assessed through direct observation of workplace commissioning activities.
Completion confirms competence in commissioning activities performed independently but does not replace site authorisations.
